

FEROZ MAHMOOD

Computer Science Student | Data Science & AI/ML Intern | Python | SQL | Machine Learning

Lahore, Pakistan | ferozmahmood1@gmail.com | www.linkedin.com/in/feroz-mahmood | github.com/ferozmahmood1

PROFILE

Computer Science student focused on data science, machine learning, AI-assisted workflows, and data analytics. Skilled in Python, Pandas, NumPy, Scikit-learn, SQL basics, data cleaning, visualization, and Git/GitHub. Experienced in remote data operations, AI content review, structured data validation, and documentation workflows across 3+ years of freelance and academic project work.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | University of Management and Technology | 2023 - 2027 | CGPA: 3.00/4.00

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Artificial Intelligence, Probability & Statistics.

TECHNICAL SKILLS

Languages: Python, SQL (Basic)

Data Science & ML: Pandas, NumPy, Scikit-learn, Machine Learning Fundamentals, Data Cleaning, Data Preprocessing, Data Visualization

Tools: Jupyter Notebook, Google Colab, Git, GitHub, Microsoft Excel, Google Sheets, Google Workspace

AI & Productivity: Prompt Engineering, ChatGPT, Gemini, Claude, AI-assisted content review and workflow automation

EXPERIENCE

Remote Data Operations & AI Content Support Specialist | Freelance, Remote | 2025 - Present

- Supported 5 data and AI workflow areas: dataset structuring, data validation, spreadsheet reporting, content categorization, and prompt evaluation.
- Maintained Excel and Google Sheets trackers for digital and academic platforms, improving consistency across recurring data updates and reports.
- Reviewed structured datasets and digital records to identify formatting, labeling, and accuracy issues before final submission.
- Coordinated documentation and workflow updates for remote teams while meeting recurring deadlines.

Operations & Data Management Assistant | Freelance, Remote | 2023 - 2024

- Managed 4 operational areas: digital records, spreadsheets, scheduling systems, and CRM-related documentation.
- Organized internet research and business information into structured documents for tracking, reporting, and team use.
- Updated Google Workspace and Microsoft Office records to improve data availability and reduce duplicate or inconsistent entries.

AI Content Reviewer & Data Quality Assistant | Remote | 2022 - 2023

- Reviewed AI-assisted and academic content across 5 quality areas: accuracy, formatting, categorization, validation, and consistency.
- Verified structured data and corrected inconsistencies in digital documents to support clean, submission-ready outputs.
- Used AI tools to streamline review and categorization workflows while maintaining attention to detail across high-volume information.

PROJECTS

AI-Based Movie Recommendation System | Python, Pandas, NumPy, Scikit-learn, Content-Based Filtering, Cosine Similarity

Repository: <https://github.com/ferozmahmood1/AI-Movie-Recommendation-System.git>

- Built a content-based recommendation pipeline to suggest movies using item similarity and user preference matching.
- Cleaned and transformed movie datasets, extracted features, and calculated cosine similarity for recommendation logic.
- Documented workflow and results in Google Colab/GitHub for portfolio review and reproducibility.

AI Expense Tracker | Python, JSON, CSV

Repository: <https://github.com/ferozmahmood1/AI-Expense-Tracker.git>

- Developed a console-based expense management application with expense tracking, category analysis, budget monitoring, and AI-based financial suggestions.
- Implemented structured file handling with JSON/CSV and modular Python functions for record storage and analysis.

LANGUAGES

English (Fluent), Urdu (Fluent), German (Basic)
